Seaway Fran / bunkers

All,

Terminal now advised they will not allow bunker operations alongside. We have informed the operator at Heidmar and intention is to seek a USCG waiver to allow the vessel to bunker High Sulphur fuel in order to avoid cargo shutdown. We are working with USCG to facilitate

PBF advised their intention is to kick the vessel off the berth after 100000 bbls are discharge and bring another vessel into the berth.

FYG, the vessel commenced discharge at 19/1012 hrs

will keep you posted.

Very best regards,

Ron Soldani - mobile 504-579-4521

Thank you

Agents are attempting to get an ETA on the bunker barge as well. This is critical to the terminal's decision on how they proceed.

Thanks

Sarah

Hi Craig

we can bunker alongside concurrent with discharge as this is standard operation - obviously it all depends on eta of the Barge - which we are working on getting it there asap

Nikolaos,

With regards to bunkering alongside.

Please see below from Vitol.

Can you confirm and advise?

Best Regards,

Craig A. Carnahan

Craig

Can you also confirm with owners they can receive bunkers while discharging?

Thanks

Hi Craig,

I am hearing the Seaways Fran may run out of MDO to complete the discharge at PBF Chalmette.

She has 51MT and the discharge takes 43-50MT so she could run out.

Can you pls ask owners to confirm this?

Thanks

Sarah Williford
